SUMMARY

Enthusiastic Java Full Stack Developer with hands-on experience in Core Java, JDBC, Hibernate, Servlets, SQL, and React.js, Node Js, Express, Passport.js, Mongo DB. Skilled in building scalable full-stack applications, REST APIs, and responsive UIs using modern technologies. Strong problem-solving ability. Eager to contribute to a growth-oriented engineering team.

SKILLS

- Languages:** Java, JavaScript
- Backend:** Node.js, Express.js, Passport.js, Hibernate, JDBC, Servlets, JSP, REST APIs, OOP Concepts
- Frontend:** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, JavaScript
- Database:** MySQL, MongoDB
- Tools & Technologies:** Git, GitHub, Postman, VS Code, Eclipse, IntelliJ IDEA, MongoDB Compass

INTERNSHIP

Java Full Stack Development Trainee — JSpider

July 2025 - Present

- Gained hands-on experience in Java, JDBC, Hibernate, Servlets, JSP, and SQL.
- Developed multiple projects following MVC architecture and clean coding practices.
- Performed CRUD operations, database connectivity, and API development using Postman.
- Developed a Spring Boot REST API for User Management with transactional entity handling, soft deletes, pagination, validation, and relational mapping. Integrated frontend using React and handled real-world database constraints.

EDUCATION

Oriental College of Technology,, Madhya Pradesh

Bachelor of Technology in Data Science

2021 – 2025

CGPA: 7.59

Anand Vihar model school, Babai

Madhya Pradesh Examination Board– Class XII

2020 – 2021

Percentage:-73.4%

Anand Vihar model school, Babai

Madhya Pradesh Examination Board– Class X

2018 – 2019

Percentage: 73%

PROJECTS

PixStream – Media Upload Feed Website

Tech Stack: HTML, CSS, JavaScript, React Js, Node.js, Express Js, MongoDB

- Developed a social media platform for uploading media, creating posts, liking, and commenting.
- Designed REST APIs and implemented JWT + Passport.js authentication.
- Secured protected routes for login and authorization.
- Added real-time updates for likes and comments using React state management.
- Optimized backend APIs for efficient data rendering and feed loading.

TuneStream – Music Streaming Website

Tech Stack: HTML, CSS, JavaScript, React Js, Node.js, Express Js, MongoDB

- Built a Spotify-like music streaming platform with separate Admin and User roles.
- Implemented secure authentication and user session management.
- Added real-time playlist updates using WebSockets to improve responsiveness.
- Developed search/filter features for songs, artists, and playlists.
- Integrated custom music controls (play, pause, seek, and volume).
- Optimized MongoDB queries for faster data retrieval and performance.

ACHIEVEMENTS AND CERTIFICATIONS

- Certification in Java Full-Stack development - JSpider (Banglore).
- TCS CodeVita – Season XII — Qualified Participant (2025)
- Certified in Java & Problem Solving — Sheryians Coding School (Bhopal).
- Certified in Mern Stack — Sheryians Coding School (Bhopal).
- Completed multiple real-time full-stack practice projects.
